# CHAPTER 1: GENERAL RULES

## INTRODUCTION

The GWA Wingfoil World Tour Rulebook is published by the GWA Sport Committee in September 2020. This Rulebook will be revised and published every year by the GWA Sport Committee.

GWA Wingfoil World Tour competitions are sanctioned and approved by the Global Wing sports Association.

All GWA Wingfoil World Tour competitions shall be managed under the GWA Wingfoil World Tour Event Organisers Manual and the GWA Wingfoil World Tour Rulebook.

## FUNDAMENTAL RULES

### 2.1. Language

English is the official language of the GWA Wingfoil World Tour, which will henceforth be referred to as WWT.

### 2.2. Rule Intentions

The event rules are designed to allow the best competitor to win because of their high level of skill, good use of equipment and good fortune. The rules are not designed to allow a winner to prevail because of certain procedures or raising arguments over legalities. All disputes surrounding rules should be carried out with regard to this principle.

### 2.3. Amendments to the rulebook

Any major amendment to this rulebook that directly affects the competition format should be discussed and approved by the riders' committee. These changes need to be made at least 30 days before the start of the next event. Minor amendments, such as updating the tricklist and other minor adjustments, could be made within that period of time."

### 2.4. Responsibility of Competitors

Each competitor is responsible for deciding whether or not to start or to continue the competition and to provide for their safety.

### 2.5. Safety

The most important aspects of competition are safety and fair play. Unsafe competitors will be warned, fined or disqualified.

Riding in a manner that can be dangerous or a threat to the safety of other competitors will not be tolerated. All disputes under the rules shall be conducted on this principle.

When in a position to do so, each competitor must render every possible assistance to

a competitor in danger and assist organizers with any rescue information in the event of a rescue being needed.

## **2.6. Safety Systems**

Safety leashes that ensure the wing remains secured to the rider are compulsory for all competitors. Competitors will be disqualified from the event if they ride without a safety leash. The board leash will be mandatory or not depending on the conditions, this will be determined by the Race director before the competition starts.

The use of a helmet is mandatory.

Unless included in the Race Notice or the specific event instructions, personal flotation devices are optional. If a Race Notice of a specific event does require personal buoyancy, then every rider / competitor must wear a personal flotation device that conforms to the minimum ISO 12402-5 (Level 50) standard requirement. (A Race Notice may however allow for alternative or additional standards).

Starting areas for competitors' equipment will be defined by the event organizer and that zone must be respected. Spectator access will be restricted, and any media representatives will need to be authorized by the Race Director to access this area - and they will do so at their own risk.

## **3. DEFINITIONS**

### **3.1. Abandonment**

An abandoned heat is one which the Race Committee declares void at any time after the starting signal, and which may be rerun at its discretion.

### **3.2. Capsize**

A competitor is capsized if:

1. their wings are getting detached in the water.
2. There is catastrophic damage to the quiver unable to ride away.
3. their wings are tangled with another competitor's equipment, or the competitor has, clearly by accident and for a significant period:
  - a) fallen into the water or
  - b) become disconnected from the board.

### **3.3. Clear Astern / Clear Ahead / Overlap**

A board is clear astern of another when its board and wing are abaft an imaginary line projected abeam from the aftermost point of the other's board and rig. The other board is clear ahead. The boards overlap when neither is clear astern.

### **3.4. Competing**

A rider is competing from the starting signal of the heat until the finishing signal, or until

crossing the finishing line or until the heat has been postponed or abandoned. If the competitor starts jumping or surfing before the finishing signal and finishes after the finishing signal, it will count towards his final score.

### **3.5. Keep Clear**

A competitor keeps clear of a right-of-way competitor:

1. if the right-of-way competitor can ride his/her course with no need to take avoiding action and,
2. when the competitors are overlapped, if the right-of-way competitor can also, without immediately making contact, change course in both directions or move their board in any direction.

### **3.6. Leeward and Windward**

A competitor's leeward side is the side that is or, when they are head to wind, was away from the wind. However, when riding by the lee or directly downwind, their leeward side is the side on which their wing flies in a normal riding position (not holding the wing backwind). The other side is their windward side. When two competitors on the same tack overlap, the one whose board is on the leeward side of the other's board is the leeward competitor. The other is the windward competitor.

### **3.7. Mark**

A mark is any object specified in the Sailing Instructions which delimits the competition area.

### **3.8. Overtaking**

A board is overtaking from the moment it gains an overlap from clear astern until the moment it achieves a position clear ahead of the overtaken board.

### **3.9. Postponement**

A postponed heat is one which is not started at its scheduled time, and which may be run at any time the Race Committee may decide.

### **3.10. Representative**

Any individual with a power authorized under this Rulebook and designated on the Race Notice or Sailing Instructions.

### **3.11. Rider's Representative**

A nominated individual by the competitors. This representative is to be nominated amicably between the competitors present or available for a certain time that can be a full season, part of a season or an event only. If this decision cannot be made, the highest-ranking competitor per discipline will make a unilateral decision on the Representative provided the competitor accepts the decision.

### **3.12. Room**

The space a competitor needs in the existing conditions, including space to comply with her obligations under right-of-way rules, while maneuvering promptly in a seamanlike way.

### **3.13. Rule**

The rules in this Rulebook, including the Definitions, Race Signals, Introduction or announcements posted in the Official Notice Board together with any update as published in:

- the GWA Website;
- the Rulebook;
- the Race Notice;
- the Sailing Instructions; and
- any other documents that govern the event.

### **3.14. Sport Comission**

An appointed commission by the GWA Board members formed by the Sports Director and minimum two GWA Management and Sports Crew members (e.g. Tour Manager, Head judge, Race Director) who decide on the most relevant WWT competition aspects.

### **3.15. Tack, Starboard or Port**

A competitor is on a tack, starboard or port, corresponding to the competitor's hand that would be forward if the competitor were in normal riding position (riding heel side with both hands on the wing and arms not crossed). A competitor is on starboard tack when the competitor's right hand would be forward and is on the port tack when the competitor's left hand would be forward.

### **3.16. Tangle**

Two or more competitors shall be considered as tangled when the wing of at least one competitor is wrapped around the equipment of another competitor.

It is not considered a tangle when wings or boards bump into each other nor when the wing tip catches the equipment of another rider without wrapping around. Even if both riders capsize (wings in the water) as a result of the contact, this is not a tangle (unless tangled as a result of above action).

If both wings remain in the air and are quickly separated, this is not considered a tangle even if there is a slight wrap-around.

### **3.17. Transition**

A board in transition is one that is changing direction either tacking or gybing or performing a maneuver specifically designed to change tacks. A transition starts when the competitor changes course and finishes when is riding on the new tack.

### **3.18. Surf-Freestyle discipline**

The Wingfoil Surf-Freestyle discipline combines freestyle tricks together with the surf/carving maneuvers. All tricks, jumps and maneuvers performed out of the wave will be counted as freestyle tricks. On the other hand, all the carvings, turns and maneuvers performed in the swell or waves will count in the wave score.

### **3.19. FreeFly-Slalom discipline**

The Wingfoil FreeFly-Slalom discipline covers all competitions with a start and a finish line, running around a defined course marked with buoys, that includes a downwind section where competitors should use the energy of the waves or pumping, without using the power of the wing.

### **3.20. Wave discipline**

The Wingfoil Wave discipline is based on the performance of riding in waves and swell. Waves selection, power, variety, flow are just some of the judge criteria considered in waves.

### **3.21. Big Air discipline**

The Wingfoil Big Air discipline has as a main focus to boost as high as possible and break the boundaries of the sport. The competition format may be more diverse than other disciplines and the wow and show factors are the main goal.

### **3.22. Wingfoil Board**

The unidirectional board used by a Wingfoil competitor. The board's hull is fitted underneath with shaped vanes (foils) which lift the hull clear of the water at speed.

### **3.23. Wing**

The wing is the rig that is used to be pulled by the wind. It has the same principle of an aviation wing. A wing has an inflatable leading edge. Along the chord can have an inflatable strut with handles or a boom to control the rig.

### **3.24. Hydrofoil**

A hydrofoil is a lifting surface, or foil, that operates in water. They are similar in appearance and purpose to aerofoils used by airplanes. As a hydrofoil craft gains speed, the hydrofoils lift the board's hull out of the water, decreasing drag and allowing greater speeds.

## **4. EVENT DISCIPLINES AND DIVISIONS**

### **4.1. Event Disciplines**

An event can include one or more of the following disciplines:

- Surf-Freestyle
- FreeFly-Slalom
- Wave

- Big Air

The rules of which can be found in the relevant discipline section of this Rulebook. Other Special or Show Disciplines may be scheduled in an event. All scheduled disciplines at the events shall be announced in the Race Notice.

## 4.2. Divisions

A WWT event may include one or both from the following divisions:

- Pro Men: any age (minimum 14 years old within the year of competition).
- Pro Women: any age (minimum 14 years old within the year of competition).

In case of a competitor under the age limit, they will have no priority to enter a competition over another competitor who is within the age limit.

In case of a free spot in the competition that can not be taken by anybody else, the Sports Committee will evaluate if the level of the competitor is suitable to enter the World Cup Competition.

Divisions may be created or merged if there are less than six (6) competitors registered per division.

Competitors can only compete in one division per competition.

All scheduled divisions at the events shall be announced in the Race Notice.

## 5. SUITABLE CONDITIONS

The competition must take place in suitable conditions. This decision shall be made by the Race Director, WWT Representative and / or the Head Judge.

### 5.1. Wheater Conditions

When assessing if the conditions are suitable for competition in all disciplines, the event organizing team will take into account the wind speed, wind direction, temperature, incoming and current weather, wave size and ocean currents.

### 5.2. Air temperature

Shelter on the beach and sensible provisions such as hot food and drinks must be provided by the event organizer if the air temperature drops below 10° Celsius during the competition.

### 5.3. Water temperature

Competition will not run if the water temperature is not at least 8° Celsius or above.

### 5.4. Protests

The ruling on conditions is final. Protests surrounding the suitability of the conditions will not be heard / taken into account.

## **6. ORGANIZERS AND NATIONAL AUTHORITIES**

### **6.1. Event Organizers, National Authorities and Race Committee**

WWT recognised and sanctioned events will be run and organized by an individual or group that is recognised by the WWT. From here on they shall be recognised and referred to by the term 'Event Organizer'. The GWA Event Guidebook and GWA WWT rulebook will form the basis and protocol for judging and organization of all WWT competitions.

#### **6.1.1 National Authorities**

The WWT may recognise all legally constituted National Wing sports Bodies.

#### **6.1.2 Race Committee**

For each event, a waiting list is formed by the riders that pre-registered and were unable to gain immediate entry into the competition. The waiting list for a competition and order of where riders are placed can come down to the following arrangements:

- The seeding list: The seeding list determines the allocation of where riders are placed. Riders on the waiting list will be ordered in seeding list as priority.
- Video Applications: A waiting list can also include riders who have submitted videos. Videos are scored by the GWA sports committee and ordered from highest to lowest score.

- Wildcards: The GWA along with the local organiser will have Wildcard positions available for riders to gain entry into an event.

Once a start list is published, riders have until a set date to confirm their positions. If riders have not been confirmed by the date announced by the GWA, then the GWA has the right to offer positions to the next riders on the waiting list.

- If a rider from the seeding list pulls out, then the next rider by seeding list will go in and take this spot.
- If a rider from the video application list pulls out, then the next rider by ranked video will take that spot.
- If a wildcard position pulls out, then the GWA or local organizer (depending on what wildcard) has the choice to decide who the next wildcard position is offered to.

Depending on where the rider that pulls out of the event is positioned will determine what waiting list rider goes in whether that be by seeding, video, injury or wildcard positions.

None of the crew members who is not the head judge must forward any protest to the head judge. It is the obligation of the rider to place his/her protest with the head judge only and directly.
- Protests must be in either submitted by a video submission filmed with the Race Director, or by a written format then handed to the Race Director.
- Riders 18 years old and older must place the protest ALONE to the head judge. Friends or parents are **not** allowed to speak up in favour of the protesting rider. - Interference of another competitor, interference with water crew, interference with external people may be protested if a rider believes interference to their heat has affected their performance during competition.
- Trick calling or validation can be protested if the wrong trick has been correlated within the scoring system.
- Seeding and crossings within the ladders can be protested if a rider believes positions are wrong, the wrong ladder is being used, seedings are incorrect or believes there is a further incorrection displayed.

#### 11.3.3. What can't be protested

A competitor cannot protest the following points that directly affect him or her;

- A rider cannot protest the score of a trick/wave that has already been confirmed within the judge team.
- A counted landing and takeoff cannot be protested. Once a trick/wave has been confirmed, the score will be confirmed and will not change.
- The malfunction of technical devices with live scoring cannot be protested.

- Weather conditions being suitable or not cannot be protested. The Race Director will always have the final call when a competition runs or goes on standby.
- Spot/location choice cannot be protested. The competition's location is defined by the Event Organiser in mutual agreement with the GKA. - False protesting/Bad behaviour by riders or their parents, bad sportsmanship according to the existing rulebooks (for instance offending other riders, parents, fans, tour, crew directly in person or by social media), will have the following consequences.
- First time offence committed (warning) = yellow card
- Second time offence committed = red card, which means the rider will get a fine with possible disqualification.
- Black card with direct disqualification. The black card can be used at any given moment and not in sequence with the yellow and red.
- Important: Riders will have to face the same consequences for their own behaviour as well as the behaviour of their parents. In other words: A rider can be disqualified because his/her parents are committing an offence according to the rules above. Parents and coaches can be banned from competition site.
- Yellow cards count for the running event plus the next event or, if the offence was

committed after the event was finished, for the next 2 events the respective rider is attending, before it gets erased.

- Behaviour leading to yellow, red or black card can be reported to the Race Director. Only the Race Director has the authority to speak out yellow, red and black cards.

#### **11.3.5. Consequences for Protests**

- Wrong signal turn flag: Riders will receive an additional attempt if this is deemed and error.
- Flag signal not in time with real heat timer (tolerance 5 sec): If the flag signal is more than 5 sec too early, than a protest can be considered with the consequence of giving extra time. If the flag is too late, the trick/wave is still out of time and will therefore not be counted.
- Interference with obstacles in timed heat: If interference occurs then the heat is stopped and after clearance the heat will continue with or without time extension. If interference happened during performance of one or both athletes, then an additional trick/wave attempt will be granted.
- Interference with obstacles in heat with turns: The rider needs to claim interference by raising hand whilst on the water and clearly identifying interference. If the protest is then granted the rider has another attempt and interfered attempt (if it was not scored) is not counting.
- Wrong trick counting or validation: If successful in the protest, the result will be corrected as long as protest had been claimed before the next heat starts that is affected by the result or within 2 hours.
- Wrong information on noticeboard: At the moment wrong information is detected that causes an incorrect judging, the competition will be stopped, the notice board will be updated with the correct information and the competition will then continue based on correct information.
- Wrong timing on noticeboard: The timing on noticeboard is what counts and what stands.
- Score changes: You can never change the score, but you can invalidate a score if it is proved that a competitor infringes any of the rules outlined within the current rulebook. Proof can come from the sports crew's video evidence. If no video evidence is available or official recording/letter, then the final decision is made by the Race Director.

2. The maximum number of 28 competitors per gender entering at the Surf- Freestyle event and 24 in the Wave discipline. The maximum number of competitors for the Big Air World Championship is specified in the relevant subsections of this Rulebook.

CATEGORY	28 Riders

3. Entries into WWT events shall be allocated according to the following table:
4. If the number of registered competitors exceeds the maximum number of competitors, the WWT Sports Commission will select competitors based on their participation and ranking in previous years World Tour Events and / or kite merits. Video footage may be requested and used for selection.
5. Two weeks before an event, Local Organizer Wildcards shall be approved by the WWT Sports Commission.
6. The GWA will publish the wildcard allocation and participants list 14 days before an event.

7. The number of Injury Seedings will be assigned according to rule 17.3 and before closing registration.
8. If any ranked competitor doesn't show up or cannot compete in one WWT event due to an injury or other reasons, the empty spot will be given to the next highest ranked competitor. If this is not possible, the WWT Representative may grant exceptionally the available entry to another competitor prior approval from the WWT Sports Commission.

## **25. SURF-FREESTYLE JUDGING RULES**

### **25.1. Selection of Judges**

1. Only the WWT Sports Commission can make appointments and substitutions for an event.
2. An attempt shall be made to ensure that no judge has a vested interest. There should not be family tie with a competitor.

### **25.2. Individual Scoring Procedure**

1. Judging Criteria are applied to score individual waves or tricks performed.
2. To bring the variety criteria into effect, the judges won't count a repeated maneuver.
3. The maximum number of attempts per wave or trick will be up to the Head Judge. Notice must be made on the Official Notice Board 30 minutes before the heat starts.
4. One or two panels of judges, each panel comprising an odd number of judges, no less than three (3) in number, shall score each heat. When there are five (5) judges, the highest and the lowest scores per wave or scoring category will be withdrawn and the average scores of the other three (3) judges will be counted as the final wave or category score.
5. If a judge misses a wave or a trick they should place an "M" and that score will be given points equal to the average to the nearest thousandth of a point (0.005 to be rounded upward) of the other judges' scores.
6. The judges shall award each competitor's wave or trick or judging category points on a scale from 0.1 to 10.0, broken into one-hundredths increments (e.g 6.444).
7. Each individual score is rounded to the nearest hundredths place. The rounded scores are added to calculate the final score.
8. The scores of the respective competitors shall be tabulated together to determine the winner: highest points wins.
9. The weight given to waves, tricks and judging categories will be announced by the Head Judge and in the Official Notice Board at least thirty (30) minutes before the start of the heat.
10. If a competitor lands the trick wet and doesn't lose the board, the judges will still give some credit to the trick. It's at the discretion of each judge to consider if it's a crash or a wet landing and to consider how much credit they will give to the trick, based on the

commitment, technical difficulty, height, and time spent going up to the board.

11. The credit given to wet trick landings is directly related to the risk factor involved in the execution of the trick. For tricks with a high degree of risk factor, judges won't deduct points for a wet landing.
12. A trick is a crash only if the majority of the judges consider it as a crash. If the minority of the judges consider a trick as a crash, those crashes will be withdrawn and the judges will reconsider the trick in the other scoring categories
13. A crash will be considered when:
  - a competitor finishes the trick by pulling the leash to get the wing back;
  - When landing a trick, a competitor is capsized, losing control of the board or wing;
  - a competitor lands a jump but loses the wing;
  - a competitor lands a jump but crashes the wing into water and completely stops.
14. Judges may give credit to a landed trick that is not a crash when:
  - a competitor lands a jump and crashes the wing into the water, but manages to relaunch it and keep riding without completely stopping;
  - the credit given to such a trick is directly related to the risk factor and technicality involved in the execution of the trick. It's at the discretion of each judge to consider how much credit they will give to the trick.

### **25.3. Overall Impression Scoring Procedure**

An overall impression score may be used in addition to the trick scores counting towards the final heat result. Criteria of variety, "wow" factor, smoothness, innovation, tricks landed vs crashes, and commitment impact the Overall Impression score. The points awarded to the Overall Impression score counting towards the final result per competitor during a heat will be announced by the Head Judge and posted in the Official Notice Board at least thirty (30) minutes before the start of the heat.

### **25.4. Other Judging Rules**

1. A flag out system may be used to eliminate the competitor with the lowest scores and continue the heat keeping the current heat scores from the remaining competitors on the heat. In case of tie, it will be broken in favor of the competitor with the highest single score. If a tie remains between two or more competitors, each competitor's individual scores shall be listed in order of best to worst, even if some of them are excluded scores, and at the first point where there is a difference the tie shall be broken in favor of the competitor with the best individual score.
2. The judging marks and scores of each individual judge shall be shown only to competitors in that heat, on their request.
3. Competitors are not allowed to stay in the judge's tower. If a competitor wants to check his judging marks and scores, he shall ask for consent from the Head Judge to enter the judge's tower.
4. The scores and the decisions of the judges shall not be appealed.
5. The Head Judge must be sure that the judges do not discuss scores.

6. Judges may not change their scores. If there are any mistakes the judge should have the Head Judge make the correction for them.
7. The Head Judge may re-run a heat if there is strong evidence that there is a major discrepancy in the judging scores from each individual judge, or that all judges missed a trick that had a scoring potential that may change the final result.
8. Scores cannot be changed under any circumstances when the heat is over.
9. If it is possible, the decision to re-run shall be made before announcing a winner of the heat in question.

### 25.5. Ties in the individual scoring format

In case of tie in the individual score format, it will be broken in favor of the competitor with the highest single wave or trick score. If a tie remains between two or more competitors, each competitor's individual scores included in the total score only, shall be listed in order of best to worst, and at the first point where there is a difference the tie shall be broken in favor of the competitor with the best individual score. If a tie remains between two or more competitors, each competitor's individual trick scores shall be listed in order of best to worst, and at the first point where there is a difference the tie shall be broken in favor of the competitor with the best individual score.

### 25.6. Ties in the Overall Impression format

In case of tie, it will be broken in favor of the competitor with the highest Technical Difficulty score. If a tie remains between two or more competitors, each competitor's individual scores shall be listed in order of best to worst, even if some of them are excluded scores, and at the first point where there is a difference the tie shall be broken in favor of the competitor with the best individual score.

### 25.7. Judging criteria for Freestyle tricks

- **Height and amplitude** – The combination of height and amplitude of the tricks completed during the heat. As the wind conditions increase, this aspect will exponentially become more and more into consideration, but only when the height and amplitude are achieved along with risk factor and technical difficulty.
- **Technical Difficulty** – The technical difficulty of tricks completed during the heat.
- **Power** – The power during the execution of the tricks. Power will be considered as a combination of speed into the trick to pop and speed out during the landing, height and amplitude during the trick.
- **Risk factor** – The risk factor is directly linked to the power, height, amplitude and technical difficulty of the jump, but also to the commitment of the competitor and physical challenge during the execution, duration of the critical moment, and energy on the execution.
- **Smoothness** – Smoothness and fluidity during the execution and landing of tricks completed during the heat.
- **Innovation** – Tricks that have never been landed in competition before within their own discipline.

## **25.8. Judging criteria for combos**

The entire combination of tricks will be counted as one single score; judging criteria will be similar to freestyle tricks, additionally rewarding the linking in between tricks. The combo trick will be scored on his own scale from **0.1 to 10 points**. Combos shall present and display the variety of tricks available.

## **25.9. Extra coefficient for innovation**

The multiplying factor will be an indicative or reference for the judges, but never will a fixed value to be added to the scores. It is at the judge's own discretion to evaluate the degree of the difficulty of the maneuver and reward the INNOVATION accordingly.

## CHAPTER 3: WINGFOIL WAVE DISCIPLINE

In the Wave discipline the main focus is the performance riding waves and swell. The wave discipline will be scored wave by wave and the use of the wing power will be prohibited when doing air tricks:

- Carving
- Surfing waves/swell
- Air tricks

2. Foot-straps, pads and wax are allowed.
3. The use of a safety wing leash and helmet is mandatory.
4. The use of a board leash could be mandatory depending on conditions. It will be announced by the Race Director and posted in the Official Notice Board at least thirty (30) minutes before the start of the heat.

## 30. WAVE JUDGING RULES

### 30.1. Selection of Judges

1. Only the WWT Sports Commission can make appointments and substitutions for an event.
2. An attempt shall be made to ensure that no judge has a vested interest. There should not be family tie with a competitor.

### 30.2. Individual Scoring Procedure

1. Judging Criteria are applied to score individual waves.
2. The number of waves counted for the final score will be announced by the head judge. A notice must be made on the Official Notice Board 30 minutes before the heat starts.
3. The maximum of attempts per wave will be up to the Head Judge. A notice must be made on the Official Notice Board 30 minutes before the heat starts.
4. One or two panels of judges, each panel comprising an odd number of judges, no less than three (3) in number, shall score each heat. When there are five (5) judges, the highest and the lowest scores per wave or scoring category will be withdrawn and the average scores of the other three (3) judges will be counted as the final wave or

category score.

5. If a judge misses a wave they should place an "M" and that score will be given points equal to the average to the nearest thousandth of a point (0.005 to be rounded upward) of the other judges' scores.
6. The judges shall award each competitor's wave or judging category points on a scale from 0.1 to 10.0, broken into one- hundredths increments (e.g 6.444).
7. Each individual score is rounded to the nearest hundredths place. The rounded scores are added to calculate the final score.
8. The scores of the respective competitors shall be tabulated together to determine the winner: highest points wins.
9. If a competitor lands the trick on a wave wet and doesn't lose the board, the judges will still give some credit to the trick. It's at the discretion of each judge to consider if it's a crash or a wave attempt to land and to consider how much credit they will give to the wave, based on the judge criteria.
10. The competitor is allowed to use the power of the wing when performing on the waves and swell. That includes air tricks as integrated part of the wave-ride when landed in the same wave.  
Powered air tricks as part of the wave shall be rigorously judged on commitment, height, power, and, most importantly, execution in the critical section of the wave.

Only highly committed and powerful maneuvers which are performed as integral part of the wave ride will meaningfully contribute to the final wave score, while lower-intensity tricks will have minimal impact.

### **30.3. Other judging rules**

1. A flag out system may be used to eliminate the competitor with the lowest scores and continue the heat keeping the current heat scores from the remaining competitors on the heat. In case of tie, it will be broken in favor of the competitor with the highest single score. If a tie remains between two or more competitors, each competitor's individual scores shall be listed in order of best to worst, even if some of them are excluded scores, and at the first point where there is a difference the tie shall be broken in favor of the competitor with the best individual score.
2. The judging marks and scores of each individual judge shall be shown only to competitors in that heat, on their request.
3. Competitors are not allowed to stay in the judge's tower. If a competitor wants to check his judging marks and scores, he shall ask for consent from the Head Judge to enter the judge's tower.
4. The scores and the decisions of the judges shall not be appealed.
5. The Head Judge must be sure that the judges do not discuss scores.
6. Judges may not change their scores. If there are any mistakes the judge should have the Head Judge make the correction for them. The head judge has the last word.

7. The Head Judge may re-run a heat if there is strong evidence that there is a major discrepancy in the judging scores from each individual judge, or that all judges missed a wave or a maneuver in a wave that had a scoring potential that may change the final result. If it is possible, the decision to re-run shall be made before announcing a winner of the heat in question.
8. Scores cannot be changed under any circumstances when the heat is over.

#### **30.4. Ties in the individual scoring format**

In case of tie in the individual score format, it will be broken in favor of the competitor with the highest single wave score. If a tie remains between two or more competitors, each competitor's individual scores included in the total score only, shall be listed in order of best to worst, and at the first point where there is a difference the tie shall be broken in favor of the competitor with the best individual score. If a tie remains between two or more competitors, each competitor's individual waves scores shall be listed in order of best to worst, and at the first point where there is a difference the tie shall be broken in favor of the competitor with the best individual score.

#### **30.5. Ties in the Overall Impression format**

In case of tie, it will be broken in favor of the competitor with the highest Technical Difficulty score. If a tie remains between two or more competitors, each competitor's individual scores shall be listed in order of best to worst, even if some of them are excluded scores, and at the first point where there is a difference the tie shall be broken in favor of the competitor with the best individual score.

### **31. RIGHT OF WAY RULES IN THE WAVES**

#### **31.1. Wave Priority with Side-Shore conditions**

1. With side-shore winds and only one available direction on any given wave, the heat priority works in the following manner:
2. The competitor who has first turned on a swell shall have unconditional priority over the other competitors for the entire duration of that wave.
3. If two or more competitors turn at the same time, with no clear interpretation of which competitor turned first, then the competitor windward has right of way for the entire duration of that wave.
4. Video evidence shall be used to prove that one rider has turned on a swell before the other.
5. Waves Priority with On-shore conditions: With on-shore winds and multiple random peaks wave possession may vary slightly according to the nature of an individual wave.
6. There will be cases where one swell will have two separate, defined peaks far apart that eventually meet at some point. The competitor who makes the first turn shall be deemed to have wave possession and the second competitor must give way by turning

or kicking out before hindering the right of way rider.

7. If two competitors turn at the same time on two separate peaks that eventually meet, then:
  - If they both give way by turning or kicking out, so that neither is hindered, there will be no penalty.
  - If they collide or hinder one another, a competitor will be penalized by the judges if either or both indicate aggression at the point of hindrance.
  - If neither competitor gives way by exiting the ride and both share responsibility for the confrontation, then a double interference will be called. Both competitors will score a zero for that wave, and each of their best scoring waves are halved.

### **31.2. Wave Priority with On-shore conditions**

With on-shore winds and multiple random peaks wave possession may vary slightly according to the nature of an individual wave.

1. There will be cases where one swell will have two separate, defined peaks far apart that eventually meet at some point. The competitor who makes the first turn shall be deemed to have wave possession and the second competitor must give way by turning or kicking out before hindering the right of way rider.
2. If two competitors turn at the same time on two separate peaks that eventually meet, then:
  - If they both give way by turning or kicking out, so that neither is hindered, there will be no penalty.
  - If they collide or hinder one another, a competitor will be penalized by the judges if either or both indicate aggression at the point of hindrance.
  - If neither competitor gives way by exiting the ride and both share responsibility for the confrontation, then a double interference will be called. Both competitors will score a zero for that wave, and each of their best scoring waves are halved.

## **32. INTERFERENCE IN THE WAVE**

### **32.1. Rules for waves**

1. A competitor deemed to have possession of a wave has unconditional right of way for the entire duration of that ride. This rule prevails in case of conflict with other(s) 19.1 right of way rule(s).
2. Anyone who stands up in front of a competitor with right of way has the chance to ride or kick out of the wave without being called interference, unless they hinder the scoring potential of the competitor with right of way by any means. These include excessive hassling, including with their wing from behind, or breaking down a section.
3. If a second competitor surfs another section of the same wave, upwind or downwind, but has not hindered the original competitor with right of way by taking the same wave then the judges may choose not to penalize them even though they don't have right of

way and will score both competitor's surfs. If in the opinion of the judges, the second competitor has interfered with the original competitor with right of way, by causing them to pull out or lose the wave, then interference may be called on the second competitor, even though they were on another section upwind or downwind of the first when the interference was called.

4. If a competitor with the right of way misses or falls off their wave, they shall keep clear of the following wave if another competitor has possession on that wave, if reasonably possible. If a competitor cannot complete their wave due to another competitor capsizing in the wave, causing possible loss of scoring potential, the affected competitor's heat may be re-run and an interference may be called. The Head Judge and Race Director will decide whether it is an interference and whether the heat will be rerun from the beginning, from the moment of the interference, or if extra time will be added if there is a re-run.
5. If a competitor who remains in the water after their maximum number of waves will be penalized for interference if they ride any extra wave that obviously deprives another competitor of a potential wave.

### **32.2. Interference penalty procedure for Overall impression scoring**

- If an interference penalty is called on a competitor, then the competitor's final score will be penalized with a loss of 50% of their "Technical Difficulty" scoring. If a competitor incurs a second interference penalty during the heat, they must immediately leave the competition area and won't be scored from that point, losing 100% of their "Technical Difficulty" scoring.
- With two heats on the water simultaneously, if there is an interference between two riders of different heats, the heat will be stopped and may be re-started. Interference penalty may be called, and the Race Director will decide whether it will be a rerun from the beginning, from the moment of the interference, or with additional time.

### **32.3. Interference penalty procedure for individual scoring**

1. If an interference penalty is called on a competitor, then the competitor's final score will be penalized with a loss of 50% of their second-best wave or trick score. If a competitor incurs a second interference penalty during the heat, he must immediately leave the competition area and won't be scored from that point, losing 100% of their second-best wave or trick score.
2. Same rule applies as under 25.2.

## **33. JUDGING CRITERIA FOR THE WAVES**

Judging Criteria are applied to score individual waves ridden. Each judge analyzes the following major elements when scoring a wave :

- Degree of difficulty of the maneuvers performed.
- Commitment in the maneuvers performed and the risk taken to perform them.
- Variety and combination of maneuvers within the same wave.

- Speed and power.
- Flow and linking of maneuvers.
- Size of the waves ridden, directly linked to the degree of difficulty of maneuvers performed in each wave.
- Innovative and progressive maneuvers. It's important to note that the emphasis of certain elements is contingent upon the location and the conditions on the day, as well as changes of conditions during the day.  
Competitors must combine the major key elements in order to be awarded scores in the excellent range.
- The following scale may be used to describe a wave ridden that is scored:
  - 0 – 1.9 = Poor;
  - 2.0 – 3.9 = Fair;
  - 4.0 – 5.9 = Average;
  - 6.0 – 7.9 = Good;
  - 8.0 – 10.0 = Excellent.

## CHAPTER 4: WINGFOIL BIG AIR DISCIPLINE

The Big Air discipline will be focused on the performance breaking the boundaries and limits of the sport, boosting as high as possible combining technical tricks.

- Air Tricks

### 34. WINGFOIL BIG AIR EQUIPMENT

1. Only Hydrofoil boards are eligible for use in competition. There are not any restrictions on the size, length and width of the quiver.
2. Foot-straps, pads and wax are allowed.
3. The use of a board leash could be mandatory depending on conditions. It will be announced by the Race Director and posted in the Official Notice Board at least thirty (30) minutes before the start of the heat.

### 35. ENTRY ALLOCATION, SEEDING, INJURY AND PREGNANCY SEEDING

1. Anyone wishing to compete in WWT sanctioned events, recognised events or trials of sanctioned events must be WWT members and may only compete with the approval of the WWT.
2. A maximum number of 24 competitors per gender enter the big air event.
3. Entries into WWT events shall be allocated according to the following tables:

CATEGORY	24 Riders
Big Air Ranked	1-12
Qualyfyer Selection	13-20
GWA Wildcard	21-22
Local Wildcards	23-24

CATEGORY	12 Riders
Big Air Ranked	1-6
Qualyfyer Selection	7-10
GWA Wildcard	11
Local Wildcard	12

4. If the number of registered competitors exceeds the maximum number of competitors, the WWT Sports Commission will select competitors based on their participation and ranking in previous years World Tour Events and / or wing merits. Video footage may be requested and used for selection.
5. Two weeks before an event, Local Organizer Wildcards shall be approved by the WWT Sports Commission.
6. The GWA will publish the wildcard allocation and participants list 14 days before an event.
7. The number of Injury Seedings will be assigned according to rule 17.3 and before closing registration.
8. If any ranked competitor doesn't show up or cannot compete in one WWT event due to an injury or other reasons, the empty spot will be given to the next highest ranked competitor. If this is not possible, the WWT Representative may grant exceptionally the available entry to another competitor prior approval from the WWT Sports Commission.

## 36. ELIMINATION PROCEDURE AND SCORING

### 36.1. Elimination procedure

The Elimination procedure shall be:

1. Competitors' names shall be entered on the appropriate elimination ladder according to the event seeding and the heat distribution table below.
2. Competitors with no ranking will be distributed in the WWT ladder according to the name drawing that shall be done by the Race Director at the first day mandatory meeting for all competitors before the competition starts.
3. "Byes," if any, shall be positioned so that they are allocated to the most highly ranked competitors.
4. Competitors shall ride one against one, or in groups of up to 4. The declared winners shall advance on the elimination ladder. Once a round is started, the format shall stay the same until that round is completed.

### 36.5. Discipline Scoring

1. There shall be no more than 1 dingle elimination at each WWT event.
2. The minimum number of elimination series to constitute a valid score at an event and in order to distribute prize money is one (1) WWT elimination ladder - where the fleet has been eliminated to the top eight riders with a 24 riders Dingle elimination, and to the top four riders with a 12 or 6 riders Dingle elimination.
3. Finishing positions in a Dingle Elimination shall be scored as follows:

#### 24 Riders:

## **37. BIG AIR JUDGING RULES**

### **37.1. Selection of Judges**

1. Only the WWT Sports Commission can make appointments and substitutions for an event.
2. An attempt shall be made to ensure that no judge has a vested interest. There should not be a family link with a competitor.

### **37.2. Individual Scoring Procedure**

1. Judging Criteria are applied to score individual tricks or jumps performed.
2. Repeating maneuvers are evaluated according to their own factor: **80% height** and **20% technical difficulty**.
3. The maximum of attempts per trick/jump and tricks counted towards the final score will be up to the Head Judge. Notice must be made on the Official Notice Board 30 minutes before the heat starts.
4. One or two panels of judges, each panel comprising an odd number of judges, no less than three (3) in number, shall score each heat. When there are five (5) judges, the highest and the lowest scores per trick or jump will be withdrawn and the average scores of the other three (3) judges will be counted as the final trick or jump score.
5. If a judge misses a trick or jump they should place an "M" and that score will be given points equal to the average to the nearest thousandth of a point (0.005 to be rounded up) of the other judges' scores.
6. The judges shall award each competitor's trick or jump points on a scale from 0.1 to 10.0, broken into one-hundredths increments (e.g 6.444).
7. Each individual score is rounded to the nearest hundredth. The rounded scores are added to calculate the final score.
8. The scores of the respective competitors shall be tabulated together to determine the winner: highest points win.
9. The weight given to Air and technical difficulty will be announced by the Head Judge and on the Official Notice Board at least thirty (30) minutes before the start of the heat.
10. If a competitor lands the trick wet and doesn't lose the board, the judges will still give

some credit to the trick. It's at the discretion of each judge to consider if it's a crash or a wet landing and to consider how much credit they will give to the trick, based on the commitment, technical difficulty, height, and time spent going up to the board.

11. The credit given to wet trick landings is directly related to the risk factor involved in the execution of the trick. For tricks with a high degree of risk factor, judges won't deduct points for a wet landing.
12. A trick is a crash only if the majority of the judges consider it as a crash. If the minority of the judges consider a trick as a crash, those crashes will be withdrawn and the judges will reconsider the trick in the other scoring categories.
13. A crash will be considered when:
  - a competitor finishes the trick or jump by pulling the leash to get the wing back.
  - When landing a trick or jump, a competitor is capsized, losing control of the board or wing.
  - A competitor lands a jump but loses the wing.
  - A competitor lands a jump but crashes the wing into water and completely stops.
14. Judges may give credit to a landed trick or jump that is not a crash when:
  - A competitor lands a jump and crashes the wing into the water but manages to relaunch it and keep riding without completely stopping.
  - The credit given to such a trick or jump is directly related to the risk, air factor and technicality involved in the execution of the trick.
  - It's at the discretion of each judge to consider how much credit they will give to the trick or jump.

### 37.3. Overall Impression Scoring Procedure

Judges shall not assign numerical values to each trick or jump. They will have a shorthand notation for taking brief notes of the moves performed on each tack during the heat, and points will be awarded to a number of scoring categories based on an overall impression of the heat:

**Technical Difficulty:** The technical difficulty in relation to the risk factor of tricks landed during the heat. Tricks landed with more control and without letting the board touch the water are rewarded in this category and the following.

**Execution:** A combination of smoothness, flow and fluidity during the tricks. The linking of tricks, quality vs quantity, innovation and "wow" factor fall in this category. Height and amplitude. Number of crashes.

**Variety:** Variety of tricks completed during the heat on both tacks.

### 37.4. Other judging rules

1. A flag out system may be used to eliminate the competitor with the lowest scores and continue the heat keeping the current heat scores from the remaining competitors on the heat. In case of tie, it will be broken in favor of the competitor with the highest single score. If a tie remains between two or more competitors, each competitor's individual scores shall be listed in order of best to worst, even if some of them are excluded

scores, and at the first point where there is a difference the tie shall be broken in favor of the competitor with the best individual score.

2. The judging marks and scores of each individual judge shall be shown only to competitors in that heat, on their request.
3. Competitors are not allowed to stay in the judge's tower. If a competitor wants to check his judging marks and scores, he shall ask for consent from the Head Judge to enter the judge's tower.
4. The scores and the decisions of the judges shall not be appealed.
5. The Head Judge must be sure that the judges do not discuss scores.
6. Judges may not change their scores. If there are any mistakes the judge should have the Head Judge make the correction for them.
7. The Head Judge may re-run a heat if there is strong evidence that there is a major discrepancy in the judging scores from each individual judge, or that all judges missed a trick that had a scoring potential that may change the final result.  
If it is possible, the decision to re-run shall be made before announcing a winner of the heat in question.
8. Scores cannot be changed under any circumstances when the heat is over.

### **37.5. Ties in the individual scoring format**

In case of tie in the individual score format, it will be broken in favor of the competitor with the highest single wave or trick score. If a tie remains between two or more competitors, each competitor's individual scores included in the total score only, shall be listed in order of best to worst, and at the first point where there is a difference the tie shall be broken in favor of the competitor with the best individual score. If a tie remains between two or more competitors, each competitor's individual trick scores shall be listed in order of best to worst, and at the first point where there is a difference the tie shall be broken in favor of the competitor with the best individual score.

### **37.6. Ties in the Overall Impression format**

In case of tie, it will be broken in favor of the competitor with the highest Technical Difficulty score. If a tie remains between two or more competitors, the Execution score and then Variety score will be used respectively and at the first point where there is a difference the tie shall be broken in favor of the competitor with the best individual score.

## **38. JUDGING CRITERIA FOR BIG AIR TRICKS**

1. There will be an Air factor but also a technical difficulty factor. The weight given to each factor will be announced at least 30 minutes before the heat starts. Priority is always in favor of the AIR factor. Example; 70 % Air, 30% Technical Difficulty.

2. The **Air factor** is based on the following aspects: Height, explosiveness, travel distance and hang time.
3. The technical difficulty it is based on the following factors:
  - **Height and amplitude** – The combination of height and amplitude of the tricks completed during the heat. As the wind conditions increase, this aspect will exponentially become more and more into consideration, but only when the height and amplitude are achieved along with risk factors and technical difficulty.
  - **Technical Difficulty** – The technical difficulty of tricks completed during the heat
  - **Power** – The power during the execution of the tricks. Power will be considered as a combination of speed into the trick to pop and speed out during the landing, height and amplitude during the trick.
  - **Risk factor** – The risk factor is directly linked to the power, height, amplitude and technical difficulty of the jump, but also to the commitment of the competitor and physical challenge during the execution, duration of the critical moment, and energy on the execution.
  - **Smoothness** – Smoothness and fluidity during the execution and landing of tricks completed during the heat.
  - **Innovation** – Tricks that have never been landed in competition before.

## 39. INTERFERENCES

### 39.1. Interference penalty procedure for Overall impression scoring

1. If an interference penalty is called on a competitor, then the competitor's final score will be penalized with a loss of 50% of their "Technical Difficulty" scoring.
  - a. If a competitor incurs a second interference penalty during the heat, they must immediately leave the competition area and won't be scored from that point, losing 100% of their "Technical Difficulty" scoring.
2. With two heats on the water simultaneously, if there is an interference between two riders of different heats, the heat will be stopped and may be re-started. Interference penalty may be called and the Race Director will decide whether it will be a rerun from the beginning, from the moment of the interference, or with additional time.

### 39.2. Interference penalty procedure for individual scoring

1. If an interference penalty is called on a competitor, then the competitor's final score will be penalized with a loss of 50% of their second best trick or jump.
2. If a competitor incurs a second interference penalty during the heat, he must immediately leave the competition area and won't be scored from that point, losing 100% of their second best trick or jump.
3. Same rule applied as 25.2.2.

## CHAPTER 5: WINGFOIL FREEFLY-SLALOM DISCIPLINE

The FreeFly-Slalom format is an expression discipline where competitors are challenged to make one course in the shortest period of time. Every course must include a FreeFly-Slalom leg as a technical element, in which the athlete has to make it through only by using the energy of the swell, waves or pumping. The courses are adaptable depending on the conditions and are mainly designed so that the power of the swell, wind or pumping can be maximized.

### 40. DEFINITIONS

1. **Abandonment:** An abandoned race is one which the sport Committee declares void at any time after starting signal, and which may be re-sailed at its discretion.
2. **Beach Starting:** When the start line is on the beach, or so close to the beach that the competitor must stand in the water to start, it is a Beach Start.
3. **Capsized:** A sailboard shall rank as capsized when is not under way due to the wing being in the water and/or the competitor is water starting or up-hauling.
4. **Hearing:** A protest committee holds a hearing to decide whether a protest or to consider giving redress.
5. **Interested Party:** A person who may gain or lose as a result of a protest committee's decision, or who has a close personal interest in the decision.
6. **Mark:** A mark is any object specified in the Sailing instructions which a board must round or pass on a required side.
7. **On a tack:** A board is on a tack except when it is capsized, tacking or gybing. A board is on the tack (starboard or port) corresponding to its windward side.
8. **Outside/Inside/Overlap:**
  - Outside. The outside board is the board furthest from the mark.
  - Inside. The inside board is the board closest to the mark.
  - Overlap. Boards overlap when the nose of the board is in front of the stern of the other.
9. **Overtaking:** A board shall rank as overtaking from the moment it gains an overlap until it gains right of way. If an overlap between two sailboards exists when approaching the starting line to start. The windward sailboard shall be considered to be overtaking. In downwind courses you can overtake in windward and leeward.
10. **Postponement:** A postponed race is one not started at its scheduled time and which may be sailed at any time the Race Committee may decide.
11. **Pumping:** It consists in pumping upright on the board in order to get it out of the water and in fully engaging the foil, reaching the necessary speed in flight. When pumping, the wing should be generally luffed.
12. **Proper course:** A course a board would sail to finish as soon as possible in the absence of other boards referred to in the rule using the term.

- 13. Racing:** A board is racing from its preparatory signal until it has either finished and cleared the finishing line or retired, or until the race has been postponed, abandoned, or a general recall has been signaled.
- 14. Riding position:** Riding in a manner in which the competitor is being pulled by the wing at the same time as he is standing, kneeling or sitting. When riding in a pumping position, the wing should be generally luffed.
- 15. Right of way:** Unless Direct Referring is to be used.
- Outside board: A board on the outside gains right of way when its hull and rig are ahead of the right of way line of the inside board.
  - Inside Board: A board on the outside gains right of way when it's right of way line is ahead of the right of way line of the inside board.
  - If there is a reasonable doubt that a board has gained right of way, it shall be presumed that it did not.
- 16. Right of Way Line:** A right of way line is an imaginary line projected abeam from the nose of the board.
- 17. Room:** The space a board needs in the existing conditions while maneuvering promptly in a seamanlike way.
- 18. Room to Pass:** When boards are overlapped, a board required to keep clear shall give a board with right of way room to pass a mark.
- 19. Rules:**
- The rules in this book include definitions, competition signals, preambles, the rules of an appendix when it applies (but not titles).
  - The prescriptions of the national authority concerned, when they apply:
  - The Sailing Instructions and Notice of Race;
  - any other document governing the event.
- 20. Set:** A course is considered set when all marks and starting/finishing vessels are anchored in their correct position and the Race Committee is ready to start a race.
- 21. Starting:** A board starts when, after its starting signal, any part of its hull, rig or crew first crosses the starting line in the direction of the course to the first mark.
- 22. Finishing:** a board finishes when any part of its hull, rig or crew first crosses the finish line in a controlled sailing position.
- 23. Tacking:** Is a transitional maneuver of changing tack with the wind ahead. A Tack begins when the turn is started, and it ends when the board has borne away to a proper course.
- 24. Gybing:** Is a transitional maneuver of changing tack with the wind aster. A gybe begins when the turn starts, and it ends when the board is underway on a proper course.
- 25. Dangerous Sailing:** Sailing in a manner then can be considered as dangerous or a threat to the safety of the other competitors.
- 26. Conditions:** For all races the Minimum wind conditions is 7 knots or considered suitable conditions by the call of the Race Director.

The starting procedure until the end of the race should be abandoned if the wind drops

7 knots or the conditions are not suitable in any part of the course area.

In all cases the Race Director shall ensure that the wind is measured in all the course areas; close to the marks, starting line, finishing line.

It is recommended to have boats in all the parts of the course.

Protests regarding wind strength and suitability of wind direction or wind conditions shall be disallowed.

**27. DNF:** Did not Finish. The competitor did not make it to the finish line.

**28. PMS:** Premature start. The competitor crossed the starting line before the green flag was raised.

**29. DSQ:** Disqualified. The competitor has been disqualified directly by the referee. There are several reasons to disqualify a competitor.

**30. DNS:** Did not Start. The competitor did not cross the starting line.

**31. Event officers:**

GWA FreeFly-Slalom events shall use the following:

- A GWA approved Race Director,
- A GWA approved Principal Race Officer (PRO),
- A GWA approved Head Protest Judge,
- At least 3 GWA approved Judges,
- A GWA Representative,
- A GWA approved Scorer.

Exceptions may only be made in advance by the GWA management board.

## 41. FREEFLY-SLALOM EQUIPMENT

1. Only hydrofoils are eligible for use in competition.
2. The leading edge from the wing must be inflatable.
3. The use of a safety leash to secure the wing is mandatory.
4. The use of a helmet and protection vest is mandatory.
5. The use of a board leash could be mandatory depending on the conditions. It will be announced by the Race Director and posted in the Official Notice Board at least thirty (30) minutes before the start of the heat.

## 42. ELIMINATION PROCEDURE

A FreeFly Slalom competition consists of multiple qualifying eliminations where all riders that enter the event are competing against each other. In the final elimination only a limited number of competitors can enter.

### 42.1. Qualifying Elimination procedure

The procedure of one qualifying elimination procedure shall be:

1. Competitors' names shall be entered on the appropriate elimination ladder according to the event seeding and the heat distribution table below.
2. Competitors with no ranking will be distributed in the WWT ladder according to the name drawing that shall be done by the Head Protest Judge at the first day mandatory meeting for all competitors before the competition starts.
3. "Byes," if any, shall be positioned so that they are allocated to the most highly ranked competitors.
4. Competitors shall ride all versus all, in several FreeFly-Slalom/heats. The declared winners shall advance on the elimination ladder.
5. It is recommended to run heats with a bigger fleet of 15 competitors, except for long distance races that can be run in a full fleet format.

#### 42.4. Elimination and scoring

1. When FreeFly-Slalom is run using an elimination system, competitors will score points based on the following principle. Competitors in the final shall score their finishing position (0.7 for 1st place). Competitors in a small final shall score their finishing position plus the number of competitors in the final. Competitors in previous heats shall score the average of the positions covered by all sailors who finished in the same position in the other heats in that round of elimination.
2. When a rider is PMS, DNS, DNF or DSQ will get the total points of the **number of competitors of the heat plus one** except for the winner final.
3. If the number of sailors in a heat, for any reason, is equal to or less than the number of sailors advancing to the next round the heat may not be re-sailed and all sailors shall advance.
4. Example in a ten-competitor single 40 elimination:

#### 42.5. Scoring of Incomplete Heats

1. Where the minimum number of heats for a valid FreeFly-Slalom/elimination series has been completed but not all places determined, competitors qualified for heats which have not been run shall be awarded the total of the points for all the positions not decided, divided by the number of competitors in the remaining heats.
2. An elimination must be completed, including the finals scored for the event ranking.
3. If the first elimination is completed, including until the semi-finals, it will be valid for the event ranking.
4. All riders that qualified for the final which is incomplete will get rewarded with the average points from positions 1st to 10th, and all the riders that qualify to the small finals which are incomplete will get the average points from 11th till 20th. (Heat of 10 format).

#### 42.6. Number of Qualifying Eliminations

1. The minimum number of qualifying eliminations will be one (1) whilst the maximum is

seven (7). There must be at least four (4) completed FULL Qualifying Eliminations before running the Final Elimination Round.

2. The exact number of qualifying eliminations that will be done in a competition will be decided by the GWA Race Director at the competition depending on factors such as weather conditions, timing, and other factors considered.
3. There must be at least four full Qualifying Eliminations before we can do the Final Elimination Round. If we don't get to four Qualifying Eliminations done, we will not be able to do the Final Elimination Round, and in that case, the result of the event will be the ranking until that moment of the competition.
4. After completing four full Qualifying Eliminations (with one discard), the Race Director can decide after any completed elimination from four, five, six or seven to continue straight into the final elimination.

#### 42.7. Discards

1. Depending upon the number of discards permitted in the qualifying elimination, the highest then second highest scores are discarded. The lowest total score, with discards, if any, considered, wins. Scores may be discarded as set out in the following table.
2. Discards in the qualifying eliminations should be:

Number of eliminations completed	Number of events discarded
1 - 3	0
4 - 6	1
7	2

#### 42.8. Qualification to the Final Elimination

The number of riders advancing to the Final Elimination will be determined by the total number of registered participants in the competition, according to the following rules:

- If there are fewer than 20 riders competing:  
The top 6 riders from the Qualifying Eliminations (QE) will advance to the Final Elimination.  
The Final Elimination will begin with the semi-final round.
- If there are between 20 and 39 riders competing:  
The top 8 riders from the QE will advance to the Final Elimination.  
The Final Elimination will begin with the quarter-final round.
- If there are 40 or more riders competing:  
The top 10 riders from the QE will advance to the Final Elimination.  
The Final Elimination will begin with round 1.

  - The competitor who accumulates two bullets is the event winner.
  - The competitor with the next highest number of bullets finishes 2<sup>nd</sup> place in the event. If more than one competitor has one bullet each, the tie will be broken

#### 42.11. Ties in an event ranking results

When there is a tie in total points of a WWC event results, the tie shall be broken as follows:

- In favour of the competitor who has beaten the other in more heats of that competition including all discarded heats results.
- If a tie remains between two or more competitors, each competitor's heats results shall be listed in order of best to worst, and at the first point(s) where there is a difference the tie shall be broken in favour of the competitor(s) with the best result(s) including all discarded heats results.
- If a tie remains between two or more competitors, they shall be ranked in order of their results in the last heat of the competition. Any remaining ties shall be broken by using the tied competitors' results in the next-to-last heats results and so on until all ties are broken. These results shall be used even if some of them are excluded results.

### **43. EQUIPMENT RESTRICTION**

No equipment restrictions will be considered.

### **44. THE FREEFLY-SLALOM FORMAT**

1. An event can include different formats counting for the same event ranking, depending on conditions, as listed below:
  - Open Ocean
  - Flat Water
2. Every course must include a starting and a finishing line as well as a FreeFly-Slalom section. The FreeFly-Slalom section must be executed by using the energy of the swell, wind or pumping and no wing power is allowed.
3. The Open Ocean format must include a FreeFly-Slalom section covering at least 50% of the whole course and a minimum length of 500 meters.
4. The Flat-Water format must include a FreeFly-Slalom section covering at least 20% of the whole course and a minimum length of 200 meters.
5. The number of laps and marks available will be determined by the Race Director according to the conditions and the competition timing. The call must be made at least 20 minutes before the heat starts.
6. There will be a minimum of 4 minutes of period in between the start of the heat and the start of the sequence of the next heat, or when the top five competitors crossed the finishing line, (with the exception of the finals).
7. There will be a three-minute countdown, signal procedure in rule 18.2.1
8. There are a maximum of 15 eliminations per event.
9. Any part of the equipment must cross over the starting and finish line first in order to be valid in riding position.

A board starts when after the starting signal any parts of his equipment crosses the starting line in the direction of the course to the first mark.

A board finishes when any part of his equipment crosses the finish line in a control riding position.

10. For starting a heat, it must be at least a minimum of 7 knots, however it will be up to the Race Director to decide if the conditions are suitable to run the competition.

## 45. GENERAL RULES

### 45.1. Direct refereeing

1. Protests may be conducted using 'Direct Refereeing'. Competitors will be informed in the Sailing Instructions for the event that Direct Refereeing may be used. The principle of Direct Refereeing is that the protest committee, normal protest and redress process and normal right of way rules are replaced by an instant and non-appealable protest made by the protest committee on the offending sailor based on:
  - Dangerous sailing.
2. The priority of the right of way rule will be applied only on the upwind leg. Starboard tack will always have priority over Port Tack.
3. The decision of the Principal Race Officer can't be appealed. He can use devices to improve the quality of his work. The evidence registered could never be appealed in a protest.
4. A Black Flag will be raised at the finish line. If the Black Flag is raised, then all sailors must consult the Official Notice Board immediately after their heat. The ONB will display the competitors' name of disqualified sailors and any redress awarded. All protest decisions are final and may not be appealed. Any competitor who fails to check the Official Notice Board and competes when disqualified will be fined according to Rule 11.2.2
5. If all the riders that qualify for the next round finish the heat in suitable conditions, the heat should be valid.  
When **50% of the riders** registered in the final finish the heat in suitable conditions, the **heat shall be valid** and other competitors shall be scored up to the time limit.
6. A competitor must sail the course so as to round or pass each mark on the required side in correct sequence according to the course diagram, and so that a string representing his/her wake from the time he/she starts until he/she finishes would, when drawn taut, lie on the required side of each mark, touching each rounding mark. A competitor shall not correct a course error or re-enter the course area after crossing through the finishing line.

There is no penalty for touching a mark, but competitors shall not hold on to a starting mark.

### 45.2. Penalties and redress

1. In addition, a competitor will be disqualified when:

- Surpassing the starting line before the green flag is up (PMS or over the line). In this case there will be a general recall and the same heat will be restarted without the disqualified riders. Competitors will be disqualified (DSQ) from the elimination, scoring one point plus the number of competitors in the rounds. In case half of the fleet is disqualified, (not the final), the remaining riders automatically advance to the next round.
- Not leaving the triangle in the starting line clear in the last minute before the heat starts. Competitors will be disqualified (DSQ) from the elimination, scoring one point plus the number of competitors in the rounds.
- The triangle is an imaginary line in between the committee boat, the start buoy and the buoy/mark number one.
- Riding in a way that can be considered dangerous or a threat to safety for other competitors. The competitor will score one point plus the number of the competitors in the heat.
- A competitor competes in the wrong heat. The competitor will be disqualified and will be scored one point plus the number of the competitors in his heat.
- Using the power of the wing during the FreeFly-Slalom leg will be penalized with disqualification from the heat.

2. A competitor will be warned when:

- A competitor doesn't show up to the heat. (DNS) Competitors that did not come to the course area shall score one point plus the number of competitors in the heat.
- A competitor couldn't make it over the starting line. (DNS) Competitors that did not cross the start line shall score one point plus the number of competitors in the heat.
- A competitor did not cross the finishing line. (DNF) Competitors that did not cross the finish line shall score one point plus the number of competitors in the heat.

### 45.3. Redress

1. A Competitor who alleges that his/her finishing position has been materially prejudiced through no fault of his/her own by:
  - An action or omission of the Sport Committee, or
  - being infringed by a competitor against whom a penalty has been imposed under Rule 11.2.17 (Unsportsmanlike Contact).
2. If the Judges decide that the finishing position was materially prejudiced in any of the circumstances set out above, they shall make as equitable an arrangement as possible for all competitors concerned. This may be to let the results of the heat stand, to adjust the point score of the prejudiced competitor, to abandon and eventually re-sail the heat or to have a sail-off between certain competitors in the heat or to adopt some other means.
3. Competitors may not request redress for incidents that have been judged using Direct Refereeing.

#### **45.4. Compensation**

There are several ways to compensate a competitor depending on the situation:

- Give the sailor the position he had during the moment he was prejudiced.
- Reward it with the average position of the numbers of competitors in the heat.
- Reward the competitor with the averages of their results from all the eliminations.

#### **45.5. Elimination**

For heats comprising 4 or more heats in the first round when at his/her starting signal, and one minute prior, any part of one or more competitor's board, rig or body is identified in a triangle between the two ends of the start line and the first mark, the sport committee shall as soon as possible give a general recall by displaying the code flag "First Substitute". The identified sailor (s) shall be disqualified for that heat. These disqualified competitors must be hailed or listed on a board and must leave the course area immediately. They are prohibited to join a re-start of the heat. If the heat is subsequently recalled, postponed or abandoned and is sailed later, these competitor(s) may not start and remain disqualified. Premature starts shall not be protested by the competitors.

#### **45.6. Abandonment**

If the Sport Committee is not able to identify, even with the help of a recording device, the premature starter/s, then the heat may also be abandoned and re-sailed. This abandonment may be announced at any time after the start, i.e. even after the end of the heat. The abandonment shall be signaled by the N-flag and/or by announcement ashore.

- An abandoned heat shall be re-sailed immediately or rescheduled.
- Any sailors in that heat shall have to accept these circumstances, even though some may have started correctly.
- Following a general recall and exactly one minute after the recall flag "First Substitute" has been lowered, accompanied by a sound signal, a new preparatory signal (Yellow Flag) shall be given.

#### **45.7. Postponing and abandoning a heat**

##### **45.7.1. General**

- before the starting signal, postpone the heat for any reason.
- After the starting signal, abandon a heat or heat because of insufficient wind, or because a mark is missing or has shifted, or because the course is incorrectly laid, or for other reasons directly affecting the fairness of the competition. The time limit for any such abandonment is 15 minutes after the first finisher.
- postpone or abandon heat at any time for safety reasons.

##### **45.7.2. Postponement**

A postponement must be signaled by the raising of the “Answering Pendant” over the committee boat or station, accompanied by two sound signals. After a postponement the ordinary starting signals in accordance with Rule 18.2.1 are used. The postponement signal shall be lowered, accompanied by a sound signal, one minute before the new preparatory signal or warning signal (Rule 18.2.1) is made.

#### 45.7.3. Abandonment

- Raising of code flag “N,” accompanied by three sound signals, means: “Present heat(s) is/are abandoned.”
- Raising of code flags “N” over “X” with three sound signals, means: “Present heats(s) is/are abandoned and will shortly be re-sailed. The warning signal will be made one minute after this signal is lowered.”
- The raising of the code flag “N” over “F,” accompanied by three sound signals, shall mean: “Only the present women’s heat is abandoned.”
- The raising of the code flag “N” over “G,” accompanied by three sound signals, shall mean: “Only the present men’s heat is abandoned.”
- Raising of code flags “N” over “Answering Pendant,” with three sound signals, means: “Present heat(s) is/are abandoned, return to shore immediately to receive information regarding further activity.”
- Raising of code flags “N” over “Fun Flag,” with three sound signals, means “Present heat(s) is/are abandoned, and you shall continue racing and finish the heat(s) for fun, training and press/spectator purposes.”
- The Sport Committee must notify all competitors concerned by signal or otherwise when a postponed or abandoned heat will be sailed.

## **46. THE EXPRESSION COURSE**

### **46.1. Courses**

There are two types of courses depending on the conditions, the Open Ocean and the Flat Water.

Each kind of course will have its own specifications with the objective of maximizing the performance according to the conditions. Priority will always be given to making the most from the energy of the swell or wind waves.

1. The expression course diagram shall be shared on the official notice board at least 20 minutes before the start or before the Z flag is hoisted, or before sending all competitors to the committee boat.
2. The course will be adapted depending on the conditions and the spot.
3. All the FreeFly-Slalom courses must include or be like:
  - A FreeFly-Slalom leg with a minimum percentage established by category.

- The upwind legs must always be bounded by marks, it should never be a free upwind.
- Besides the FreeFly-Slalom section, the Course must have short distances between jibes and tack marks, the technical factor being the main element.

#### **46.2. The FreeFly-Slalom Section**

1. A course must include a FreeFly-Slalom or pumping section suitable to the given conditions. The FreeFly-Slalom leg will start with a control gate, the power of the wing won't be allowed to be used after passing through the imaginary line in between the two marks until the next buoy of the course or the finish line (in case the downwind leg is at the final section of the course).

Competitors will have to make this section perform their glide on the swell or pumping while holding the wing from the leading edge.

2. In case a competitor can't make the whole downwind section without the power of the wing and comes down off the foil, he is only allowed to use the power of the wing again if the board stands still until he gets back up to the foil and then he has to grab it from the neutral handle again.

#### **46.3. Sailing in the Course Area when not competing**

1. If reasonably possible, a board not racing shall avoid interfering with a board that is racing.
2. A competitor may not sail in the course area indicated on the course diagram/description while heats are taking place other than during his/her own heats. A competitor infringing this rule shall be penalized as specified under Rule 11.2.2.

#### **46.4. Examples of Open Ocean Diagrams**

The Open Ocean format must include at least 50% of the FreeFly-Slalom section from the whole course as shown in the following examples:

##### **46.4.1. FreeFly-Slalom start and up wind tacks**

Start by taking advantage of the energy of swells or waves with a long FreeFly-Slalom section at the beginning of the course, followed by a cross tack to initiate a highly technical section of upwind buoys placed very close to each other, and then hit the finish line on port tack.

#### 46.4.2. Freefly-Slalom start and finish

Begin with a FreeFly-Slalom section, followed by a technical section of downwind buoys (jibes), and re-enter the FreeFly-Slalom section to end at the finish line."

#### 46.4.3. Freefly-Slalom section in the middle of the course:

Initiating with a cross-port tack, rounding a mark, and entering into another cross-starboard tack to enter the FreeFly-Slalom section. At the end of the FreeFly-Slalom section, two cross-tacks follow to hit the finish line in port tack.

#### 46.4.4. Freestyle-Slalom section with a technical section in upwind and downwind:

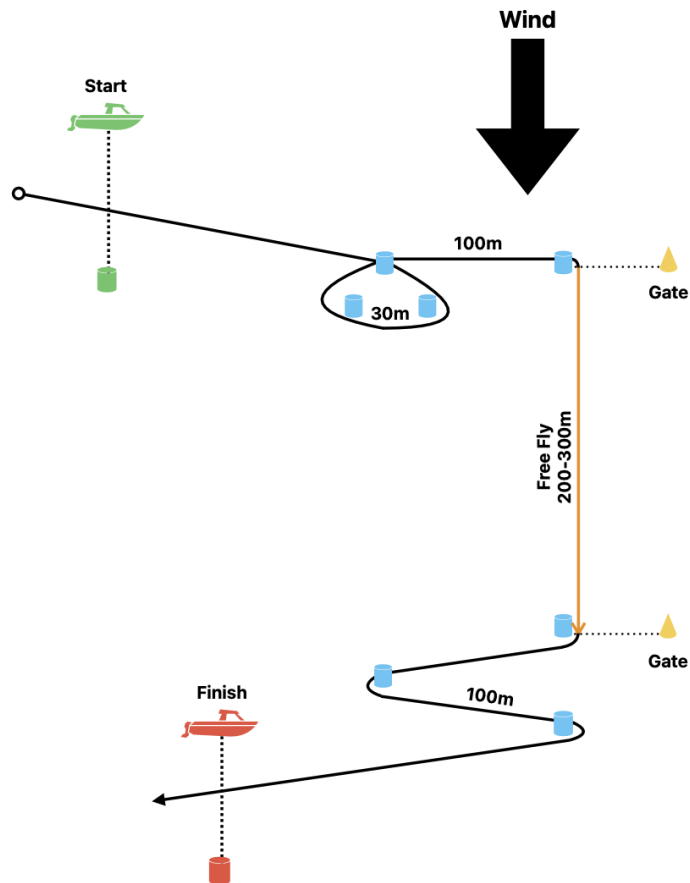

Starting with a cross in Port tack, followed by an upwind technical section (tacks) before going downwind again (jibes), and then gaining speed to hit the Freestyle section all the way to the finish line.

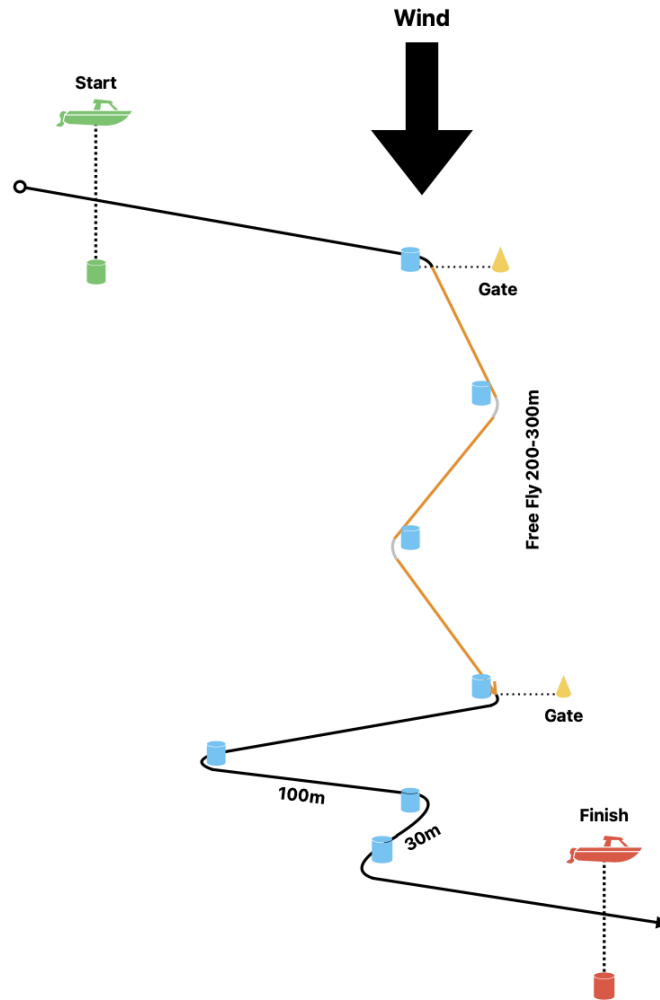

## 46.5. Examples of Flat Water diagrams

### 46.5.1. Starting with a technical section (Round 360°), FreeFly-Slalom section in the middle and finish with some jibes

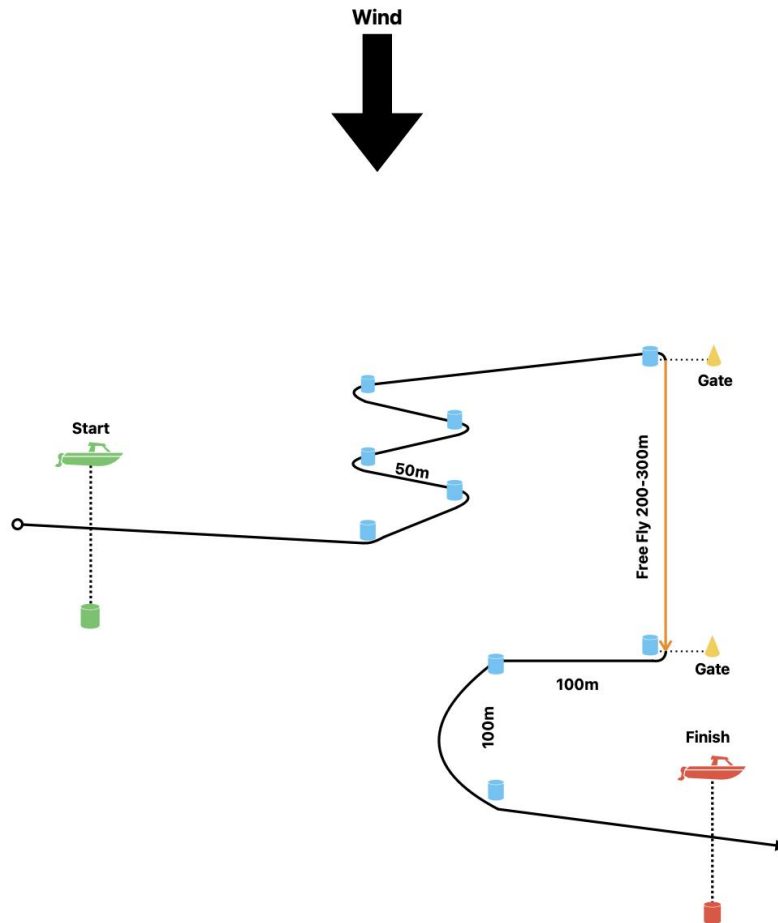

**46.5.2.** Starting with a cross in Port tack to gain speed to enter into a FreeFly-Slalom section bounded with several marks along the section. A few marks need to be jibed to hit the finishing line in Port tack.
